ALL BUSINESS HOUSES

And Half the Residence Portion of
San Francisco

UTTERLY DESTROYED

Military Are in Control and General
Funston Will See to It That
the Destitute Are Taken
Care Of.

Oakland, Cal., April 19.—Fire was still raging throughout San Francisco at 9 o'clock Thursday, and there seemed no possibility at stopping it until it had expended itself for want of material. The city at noon seemed doomed. The authorities were still dynamiting buildings in the vain hope of checking the progress of the flames.

A new misfortune has arisen. Explosives for blowing up buildings are about exhausted. Even the powder supply of the government arsenal is all gone.

Every business building and half of the residence portion of the city have been destroyed.

Thousands of refugees, rendered homeless by the terrible calamity which has overtaken San Francisco, have come to this city. On learning this a realty syndicate at once offered Idora park for the use of those left without shelter by the earthquake. The offer has been gratefully accepted by the police and fire departments, and 200 cots have been placed in a theater for the use of refugees. Relief stations have also been established at the city hall and at various public parks throughout the city. Other relief stations also have been established in such churches throughout the city as are considered safe for use as such.

The report comes from Martinez that the Martinez bank building, one of the finest structures in the town, has been completely destroyed.

It is at present impossible to estimate the amount of damage to property in this city, owing to the fact that practically no inspection has been made of buildings.

The number of dead is not known, but at least 500 persons have met death in the horror.

At 9 o'clock, under a special message from President Roosevelt, the city was placed under martial law. Hundreds of troops patrolled the streets and drove the crowds back, while hundreds more were set at work assisting the fire and police departments. The strictest orders were issued and in true military spirit the soldiers obeyed. During the afternoon three thieves met death by rifle bullets while at work in the ruins. The curious were driven back at breasts of horses that the cavalrymen rode, and all crowds forced from level district to hilly section beyond to the north. The water supply was entirely cut off, and may be it is just as well, for the lines of the fire department would have been absolutely useless at any stage. Assistant Chief Dougherty supervised the work of his men, and Thursday morning it seemed the only possible chance to save the city lay in an effort to check the flames by the use of dynamite. During the day a blast could be heard in any section at intervals of only a few minutes, and buildings not destroyed by fire were blown to atoms. But through the gaps made the flames jumped, and although the failures of heroic efforts of police, firemen and soldiers were at times sickening, the work was continued with a desperation that will live as one of the features of the terrible disaster. Passengers on trains from other cities in California bring details of destruction and death from nearly all of them.

The San Francisco hotel and Merchants' Exchange are gone. The Chronicle building is a skeleton.

The entire district as far as the New Fairmount hotel on top of Nob hill, on California street, between Powell and Mason streets, is all gone. It is reported that 100,000 people are homeless.

Ten thousand homeless are reported at Santa Rosa.

The Western Union Telegraph and Southern Pacific buildings have been totally destroyed.

At 9 o'clock the fire was burning rapidly in a diagonal line up the hill commencing at McAlister and ending at Battery street, and on Main street as far as Sixteenth street. The water supply had given out, the wind was rising and military authorities had just forbidden any one to enter the city. They had all they could handle without attempting any more. The situation at that time had not improved, and already there was great suffering for food and water. Thousands of people lined up at a park awaiting soldiers to distribute water.

On Nob hill are located many of the finest residences, including the Huntington and Crocker homes.

Four Thousand Printers Out.

Paris, April 19.—About 4,000 printers employed by various periodicals struck work, demanding a nine-hour day. The daily papers are not affected. Several employers conceded to the demand of the strikers. The movement is extending to the provinces.

ALARMING REPORTS.

Loss of Life and Property Terrible in Other Places.

Oakland, Cal., April 19.—Reports from the interior are most alarming. Santa Rosa, one of the prettiest cities in the state, in the prosperous county of Sonoma, is a total wreck. There are 16,000 homeless men, women and children huddled together. The loss of life is not to be estimated. It will probably reach thousands. As the last great seismic tremor spent its force in the earth the whole business portion tumbled into ruins. Main street is piled many feet deep with fallen buildings. Not one business building is left intact.

This destruction includes all county buildings. The four-story courthouse, with its high dome, is merely a pile of broken masonry. Nothing is left. Identification is impossible. What is left by the earthquake has been swept by fire. Until the flames started there was hope of saving the residence district. It soon was apparent that any such idea that might have been entertained had to be abandoned. This was appreciated by citizens, and they prepared to desert their homes. Not even household goods were taken. They made for the fields and hills to watch the destruction of one of the most beautiful cities in the west.

Messengers bring the saddest tidings of the destruction of Healdsburg, Geyserville, Cloverdale, Hopland and Ukiah. This report takes in the country as far north as Mendocino and Lake counties and as far west as the Pacific ocean. In every case loss of life is as terrible as at San Francisco.

PROMPT ACTION TAKEN.

War Department Orders All Resources to Relieve Sufferers.

Washington, April 19.—Prompt action has been taken by the war department in extending to the earthquake sufferers at San Francisco all available resources at its command to relieve the wants of the distressed and to provide shelter for the homeless. Two hundred thousand rations have been directed to be sent from Vancouver barracks to San Francisco, a large number of tents from Vancouver and other military posts. Supplies will be forwarded with all expeditions.

General Funston, who is in command of the army at San Francisco, has been asked whether he needs additional troops to assist him in the work, and if so Secretary Taft will give orders that they be sent him.

Secretary Taft was awakened after midnight to receive General Funston's first report, and then held an early morning conference with General Bell, chief of staff, and Commissary General Sharpe. General Bell remained on duty all night, making his headquarters at the white house offices and sending orders in various directions for dispatch of supplies to San Francisco. For the present it is the hope of officials here that supplies will be sent to General Funston to relieve all immediate necessities. They will be followed by more, if the emergency demands it.

FUNSTON'S REPLY.

Reports That Two Hundred Thousand People Are Homeless.

Washington, April 19.—The war department received the following telegram from General Funston, dated San Francisco, April 19: "Your four dispatches received. Have already filed several for you. Impossible now to inform you as to full extent of disaster. The city is practically destroyed. Troops have been aiding policemen in patrolling and maintaining order. Martial law has not been declared. I am working in conjunction with the civil authorities. Have not interfered with sending of any dispatches. You cannot send too many tents or rations. About 200,000 people homeless. Food very scarce. Provision houses are all destroyed. All government buildings in the city are gone."

The secretary of the treasury has authorized the telegraphic transfer of \$10,000,000 from the subtreasury at New York to San Francisco. The cash will be deposited at New York and immediately paid out on order of San Francisco banks entitled to same.

OVERSHADOWS ALL.

Earthquake and Fire Chief Topics of Interest in London.

London, April 19.—The calamity which has befallen the people of San Francisco overshadows in interest all topics of newspapers here. All the papers publish long special dispatches describing the terrible effects of the earthquake and fire, together with descriptions of the city, its beauty, etc., and interviews with San Franciscans resident in London—in fact, everything calculated to bring home to the English reader a realization of the stupendous nature of the disaster. Following so soon upon the eruption of Mount Vesuvius and the earthquake shocks on the Island of Formosa, the question is anxiously debated whether there is any connection between these events. Few scientists have as yet expressed an opinion on the subject.

Free Transportation.

New York, April 19.—Wells, Fargo & Co. will express free supplies for sufferers addressed to San Francisco relief committee.

without the use of chairs in the aisles. The walls of the church will be several feet higher than be

fore, the Sunday school room being made also two stories high. The pastor's study is immediately in the rear of the pulpit. Front and rear stairways lead to the second story. The lighting arrangements will be improved in some respects and a steam heating plant installed. The organ and the memorial and art glass windows will be replaced.

Architect Flanders returned to Dallas last night to prepare the plans and specifications to be submitted for bids. The church will be a beautiful one and complete in every detail.

JUDGE HARDY WILL SPEAK.

The Eagle is requested to announce that Judge Rufus Hardy, candidate for congress, will speak at the courthouse in this city Saturday, April 21, at 2 p. m. All are invited to hear him.

COMMUNICATION LOST.

Wind Blowing a Gale and "Mixing" Wires in Many Places.

Sacramento, April 19.—Both telegraph companies have practically lost communication with San Francisco. Wires west come up and go down in a fitful way, making their continuous use impossible. At one point 1,000 feet of line has sunk out of sight and at many other places poles have toppled over. The wind is blowing a gale and "mixing" wires at many places.

Squadron Safe.

Washington, April 19.—A telegram received at the navy department from the commander of the Pacific squadron sent since the earthquake reports all well with the squadron. The Chicago and Marblehead are en route from Long Beach to San Francisco.

Negress Found Dead.

Dallas, April 19.—Fannie Leach, a negro woman, was found dead; natural causes.

Lloyd's Historic Bell.

The bell used to insure silence at Lloyd's, in London, when the arrival of an overdue vessel is announced to the anxious underwriters is of naval origin. It belonged to the Lutine, which was wrecked near the Zuyder Zee toward the end of the eighteenth century, when England was at war with Holland. As it was customary in those days to send bullion and specie by men-of-war, the Lutine carried a valuable consignment of specie, and the underwriters at Lloyd's were able to arrange with the Dutch government to salvage the cargo and recoup themselves for their loss on insurance. Over £50,000 was recovered, and among other relics brought to shore was the Lutine's bell, to ring out good cheer for anxious underwriters who hear the safe arrival proclaimed by Lloyd's crier as silence follows the ringing of the bell.

HOUSTON INAUGURATED.

Formally Inducted as President of University of Texas.

Austin, April 19.—President D. F. Houston of the University of Texas was inaugurated as president of that institution Thursday. The exercises attendant upon the inauguration were impressive and witnessed by a large number of educators of the state. Speeches were made by a number of those present. Governor Lanham and other state officials were among those in attendance.

The railroad commission issued notice to the Houston and Texas Central railway for a hearing on the proposition to reduce passenger fare on that road alone from 3 to 2½ cents per mile. The hearing is set for May 15.

Records of state insurance department show the following insurance companies doing business in this state have headquarters at San Francisco: Fireman's Fund, Home, Fire and Marine, and Pacific Mutual. The last named is a life insurance company.

FATALLY INJURED.

Lieutenant Pullis Has Fractured Skull and Other Wounds.

San Francisco, April 19.—Lieutenant Charles C. Pullis, commanding the Twenty-fourth company of light artillery, was blown up by a charge of dynamite at Sixth and Jessie streets and fatally injured. He was taken to the military hospital at Presidio. He has a fractured skull and several bones were broken and internal injuries.

Lieutenant Pullis placed a heavy charge of dynamite in a building on Sixth street. The fuse was imperfect and did not ignite the charge as soon as expected. Pullis went to the building to relight it, and the charge exploded while he was in the building. The injured officer is a graduate of the artillery school at Fortress Monroe, Va. He is thirty years old, single and a native of Chicago.

PROMPTLY PASSED.

Relief Resolution of Senator Perkins Adopted Immediately.

Washington, April 19.—In the senate Thursday Mr. Perkins introduced a joint resolution authorizing secretary of war to use rations and quartermasters' supplies for relief of destitute persons in the region devastated by earthquake and fire in California and making an appropriation of \$500,000 to relieve the sufferers. It was immediately passed.

The senate resolution appropriation carrying \$500,000 for relief of San Francisco earthquake sufferers was amended by the house committee, the amount being increased to \$1,000,000.

TWO SMALL SHOCKS.

Both Light Compared With the Original Disturbance.

Washington, April 19.—The weather bureau Thursday issued the following bulletin: "Two small after shocks of San Francisco earthquake were recorded on the seismograph at the United States weather bureau, Washington, during the night of April 18 and morning of the 19th. The first shock was decidedly stronger than the other one, although both were very light compared to the original disturbance."

ton, during the night of April 18 and morning of the 19th. The first shock was decidedly stronger than the other one, although both were very light compared to the original disturbance."

Fire Engines Useless.

Washington, April 19.—The war department Thursday received the following bulletin from the Western Union: "Outside cities have been sending fire engines to San Francisco to assist in subduing the flames, but they were found useless on account of no water. They are now returning to Oakland and other points. Firemen report the city doomed."

Fire Zone.

New York, April 19.—Dispatches up to noon Thursday describing the zone on which the fire was the most widespread stated that the flames had eaten their way out Mission street as far as Sixteenth street, and that beginning from McAllister street they extended toward the bay as far as Broadway.

Brawley Wiped Out.

Los Angeles, April 19.—Reports from Brawley, a town on the Southern Pacific 120 miles south of Los Angeles, state the town was practically wiped out by the earthquake. This is the only town in southern California known to have suffered from the shock.

Noble Workmen.

New York, April 19.—The New York Building Trades union voted to send an army of their unemployed members to San Francisco to aid in the work of clearing the city and helping its rebuilding.

Mint is Safe.

Washington, April 19.—San Francisco mint escaped serious earthquake and fire damage. It contains \$39,000,000 gold and silver bullion.

Victoria Bill Signed.

Washington, April 19.—The president signed the Burgess bill creating Victoria division of Federal court of the Southern district of Texas.

Could Not Be Worse.

Washington, April 19.—At 9 o'clock Thursday General Funston telegraphed that situation at San Francisco could not be worse.

PRACTICALLY NO HOPE.

Many People Declared to Be Roasting to Death.

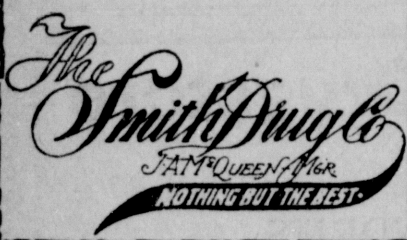

Oakland, April 19.—A correspondent of the Oakland Tribune, writing from San Francisco at 10 o'clock a. m. Thursday, says: "At this writing there seems to be practically no hope of saving any of the city. Those who were most sanguine of the ultimate success of the firemen controlling the flames have now given up hope and are fleeing from the flames in despair. Many people are being burned alive, imprisoned in doomed buildings, where rescuers could not reach them. The last big structure burst into flames—Grace church—corner of California and Stockton streets. The entire district from the channel to Broadway and from the water front to Octavia and Golden Gate avenue is a mass of flames."

Cut Flowers..

We are agents for the Dallas Floral Co. and can supply Cut Flowers of all kinds.

Designs and shapes for occasions executed at lowest figures.

Ring us up and we'll tell you more about it.

METHODIST CHURCH PLANS

Adopted at a Meeting of the Building Committee Last Night.

The building committee of the Methodist church held a meeting last night. Prof. R. O. Allen and

Dr. W. H. Lawrence, who were present, were added to the committee.

Architect Flanders of Dallas was present and submitted the revised plans for the new church building which were unanimously adopted. The changes to be made are mostly in the interior. The building will be of buff brick veneer with tinted plastered walls, steel ceiling and metal roof. There will be five entrances including a rear hall entrance. The Sunday school room will be one-half larger than before with fourteen class rooms, a gallery above, also a ladies' parlor and kitchen. Six of the class rooms are provided in the gallery and will have raised seats, being available for large congregations, the pulpit being easily visible from every point in the whole house. Three of the entrances are vestibuled. The pulpit is in the center of the rear of the building with the organ and enlarged choir space to the right. The floor of both auditorium and Sunday school room slopes towards the pulpit. The solid partition in the center, separating the auditorium and Sunday school room, rises into the attic by means of weights and a hoisting device, throwing both rooms into one. This partition has ventilating sections for use when not raised. The building will comfortably seat 1200 people

News from Our Neighbors

SANDY POINT.

We were blessed last week with copious rain, which was greatly needed. Crops are looking nicely. Nearly all have finished planting cotton, a great deal being already up. Everyone abuses the staple product, yet it is a well known fact that it is almost an utter impossibility for farmers to do without it. It is by far the surest crop and will bring more cash than any other produce with the same attention. Although we rely upon cotton as our chief money crop, it is an astonishing fact that institutions have made so few scientific investigations, and the farmer himself has tried so few experiments to increase the yield of the plant in comparison with numerous experiments on other crops. For instance we see the corn, wheat and other crops of the north have been improved; the fruit industry and truck growers of South Texas are rivaling those of Arizona and California. But we see that a great deal of attention is given to the above mentioned products, and we can not help believe that if more attention was directed to the improvement of cotton that prosperity would smile in the face of our cotton growers. Rev. G. A. Foster filled his regular appointment last Sunday evening. Among the visitors from Dayton Prairie were Misses Lucy and Allie Cunningham and Mary and Alice Smith; Messrs. Peter Smith and Frank Scott. J. F. Hall has been remodeling his residence. School closed April 6th after a profitable year's work with Miss Annie Bell as teacher, though the commencement exercises were

rather quiet.

Mr. Williams of Wellborn was in our midst last week buying cattle.

Nelson Dunaway visited home folks Saturday and Sunday.

Henry and Jim Shows, Charley and Ollie Hall and Charlie Page visited C. C. Dulaney and family Sunday.

The health of the community is good, no one on the sick list this week. V.A.L.E.

MAVERICK.

Maverick, Texas, April 15.—As so many correspondents have written to The Eagle lately, I thought possibly someone would like to hear from Maverick again.

We had a fine rain here recently. It fell slowly and went into the ground. Everybody is in good spirits, especially the newcomers from the East. They have a smile on their faces a foot long.

Dr. Todd and son, Claud, went to Ballinger last week, where the latter will attend school a month or two.

Mr. and Mrs. Will Caperton of Abilene have been visiting relatives here this week.

School closed here last Friday, and all enjoyed a good picnic Saturday. Prof. Wilson of Gatesville was principal and Miss Josie Glen of Maverick was assistant. The patrons are well pleased with the results of the school.

Sunday school is still going on nicely. We have a new organ, which adds greatly to the music.

We have literary on Friday nights and Sunday school and singing every Sunday evening and prayer meeting Sunday nights, and our Farmers' Union meets twice a month. Thus you see that

there is something doing all the time at Maverick.

All of you correspondents, write every week and tell the news of your community.

T. L. Dyess.

HARVEY LOCALS.

April 17.—A much needed shower fell here last night which promises to better our crops and gardens.

Miss Leila Yardley is at home, having closed her school at Reliance April 4.

A fishing party left this morning for the river where they will spend the day. They have a fine day for hauling out the inhabitants of the water.

A number of our people attended services at the Baptist church in Bryan Sunday afternoon and evening. The revival conducted by Revs. Martin and Hailey has been felt in our community.

Mrs. Wallace, an aged resident of Bryan, was buried at Bethel cemetery on Monday of last week, Rev. Butler conducting the funeral services. Many friends witnessed the last sad rites.

School work is progressing nicely. Some of the larger boys have had to stop and try their strength with the plow and hoe.

The question for discussion Friday afternoon by the members of the Calliopean Society is: Resolved, That poverty develops character more than riches.

A number of our youths attended the concert at Kurten Wednesday evening, which marked the close of that school. They reported a splendid time.

Health of our community is good.

TAYLOR COUNTY.

Trent, Texas, April 15, 1906. To The Bryan Eagle:

We are having some dry weather, but some indications of rain.

Farmers are all about up with their plowing.

Crops are looking very nice. Cotton planting is taking the day.

Land is advancing very rapidly. Prices are ranging from \$15.00 to \$30.00 per acre; that is improved lands. Unimproved land is selling from \$10.00 to \$15.00.

We are going to have a nice school in our town soon which will cost \$10,000.

We learn that Mr. Henry Gandy's folks have been on the sick list this week, but are now improving.

Charlie Adkins is in our community again.

We have several families from your county in our community.

We are glad to see so much land put in cultivation in West Texas. I think it is equal to the east for farming purposes.

The health of our country is good.

Corn is looking fine; also maze. Well I will close for this time.

C. S.

EDGE.

We are having some very rainy weather this week.

There was no church here Sunday on account of the preacher being absent.

Sunday school Sunday evening was largely attended.

A cyclone visited Edge Thursday night and tore Mr. J. A. Henry's house up, but no one was hurt. We all sympathize with Mr. Henry.

Mrs. Mamie Bennett returned home Friday after visiting home folks.

Concord school closed Friday with Charlie Locke teacher. We don't want you to forget your old friends at Edge, Mr. Charlie.

There was singing at the Baptist church Sunday night and was enjoyed by all who attended.

Miss Lou Thomas visited Edge Wednesday night. We were all glad to see you, Miss Lou. Come again.

Clarence Elliott and Charlie Locke went to the concert at Kurten Wednesday night, but we were sorry to hear that Mr. Elliott returned home sick.

The Maccabees met and reorganized last Monday night.

Well as news is scarce will ring off. EDIE.

Knob Prairie.

Mr. Joe Crenshaw has returned from Palestine where he was called on account of the illness of his brother-in-law.

Misses Lillie and Mary Brogdon of Woodville were visitors here last Saturday and Sunday.

A. J. Stallings visited here Wednesday.

Mr. L. B. Kern visited Knob Prairie Monday and Tuesday.

Mr. Roland Crenshaw of this place visited relatives in Bryan Sunday.

Mrs. Walter Wilcox and daughters, Misses Lizzie, Rubie and Katie, visited Bryan last week.

LITTLE RIVER.

Little River, Texas, April 15.—As today is Sunday and I am getting over the scare I got on the night of the 12th, I will try and write a few lines to the dear old come paper that comes to our house as a welcome visitor once a week.

A hail storm visited our county last Thursday night that did considerable damage all over the county. Fruit and leaves were all beaten from the trees. Gardens will have to be planted over, and also a great deal of corn. Several houses were blown from the blocks. Have not heard of anyone being hurt. Some say that grain will come out again.

We had preaching here today. There was a large congregation and a fine sermon. Brother McCann is our pastor. He was formerly a Brazos county boy, and knows people on Payne Prairie. Probably some of you know of him. Will ring off for this time.

Cliff Carter.

 J. M. RALSTON (Re-election)
 Of Cameron, Milam County.
 For Representative—15th District
 J. L. FOUNTAIN (re-election)
 BRYAN, TEXAS, APRIL 20, 1906
SAN FRANCISCO HORROR
 Appalling Magnitude of the Disaster Becoming Apparent—Congress to Afford Relief.
 By the courtesy of Mr. W. W. Harris, Western Union agent, and also of the Bryan Cotton Exchange, The Eagle on yesterday again posted bulletins of the great earthquake and fire disaster which has devastated San Francisco and contiguous localities for many miles.
 The extent of the calamity cannot yet be fully determined, but General Funston telegraphed the War department as follows: "City practically destroyed. You cannot send too many tents or rations."
 About two hundred thousand

people are homeless, all government buildings are gone, food is very scarce. Every business building and over half the residence portion gone. Great suffering from lack of food and water and thousands in line in the park awaiting turn in government distribution of food and water.
 Many people imprisoned in flaming building burned alive. Loss of life estimated at 3500, with three hundred millions property lost. Thirty thousand buildings destroyed.
 Wells-Fargo Express Co. yesterday announced that they would transport supplies for the sufferers free of charge when addressed to any relief association or public official in charge of distribution. The Western Union Telegraph Co. will also transmit messages relating to relief of sufferers when offered by duly constituted relief organizations or public officers in their official capacity.
 At Washington a senate resolution appropriating \$500,000 for relief of San Francisco was amended by house committee, amount being increased to \$1,000,000.
 The only encouraging bulletin was received yesterday afternoon, and stated fire was reported under control shortly after noon, San Francisco time.
 LATER—Advices at 9 o'clock last night showed that the fire was still burning and spreading.
TO THE TAX Payers OF BRYAN.
 The loss of the records may result in the city being required to make a canvass of the town in order to ascertain who have paid their taxes. I therefore respectfully request all persons to look up their receipts and have them convenient so that there may be no more delay than necessary. Your aid in this regard will be duly appreciated.
 116 J. E. Butler, Mayor.

RESEMBLES A SHAMBLE.
 Exact Loss of Life Will Never Be Known to Mortal Man.
 San Francisco, April 19.—It will be many days before the complete story of the ruin wrought by the double calamity of earthquake and fire will be written, and then there will still remain untold countless tales of pitiful tragedy. The exact loss of life will never be known, as hundreds of unfortunates have been incinerated in the flames. Temporary morgues were improvised at many points, only to be razed by the flames. The city Wednesday night resembled one vast shamble, with the glare of fire throwing weird shadows across the panic-stricken faces of the homeless ones, who wandered the streets or slept on piles of mattresses and clothing in the parks and on the sidewalks in those districts not yet reached by the fire.
 Forgetting for a minute the terrible suffering, physical and financial, that trails in the wake of the fire, the scene is one of unspeakable grandeur. Through all the streets automobiles and express wagons hurry, carrying the dead and injured to the morgues and the hospitals. At the morgue in the hall of justice fifty bodies lie on the slabs. The flames rapidly approached the building, and the work of removing the bodies to Jackson square, opposite, began. While the soldiers and police were carrying the dead to what appeared safe places, a shower of brick from a building, dynamited to check the progress of the sweeping flames, injured many of the workmen and sent soldier after soldier hurrying to hospitals. The work of removing the bodies stopped and the remainder of the dead were left to possible cremation in the morgue.
 At midnight the fire still roared. Fleeing inhabitants could be seen for miles around the pillars of fire towering skyward. The crash of falling ruins and the muffled reports of the exploding dynamite reached the ear at regular intervals. A disaster that staggers comprehension, and in point of terror and damage is unprecedented on the coast, has not yet reached its culmination.
WIDE FISSURES.
 Sewers and Water Pipes Burst and an Epidemic Feared.
 San Francisco, April 19.—The freaks of the earthquake were many. Wide fissures were made in the streets, sewers and water pipe burst, and it is feared that there will be an epidemic of disease. Provisions are being sold at fancy prices, and water is being vendied by the glass.
 It is impossible to give an estimate of the dead.
 In the afternoon the feffy boats resumed running from Oakland, and thousands of homeless and panic stricken people are left in the city stricken people left the city and sought shelter in Oakland and other suburban towns. The suffering and hardship beggars description. Countless numbers of residents of the poorer section of the city, including the Chinese, Japanese and Italian quarters, have been rendered homeless, and unless supplies and aid reach the city within twenty-four hours, starvation will add to the awful calamity.
 Nearly every landmark that has made San Francisco famous over the world has been laid in ruins or burned to the ground in the dire catastrophe. Never has the fate of a city been more disastrous.
 For three miles along the water front the streets have been swept clean, and the blackened beams and great skeletons of factories and offices stand silhouetted against a background of flame that slowly spreads over the entire city.
FIGURES AND FACTS.
 Desolation That San Francisco Endures Given in Statistics.
 San Francisco, April 19.—At 5 o'clock Thursday morning the desolation could be summed up thus:
 Houses destroyed by earthquake, 1,000.
 Area destroyed by fire (square miles), ten.
 Lives lost, (estimated), 10,000.
 Property loss, \$300,000,000.
 City is under martial law.
 Some of the important buildings destroyed, and valuation are herewith given: St. Ignatius' church and college, \$2,500,000; Palace hotel, \$2,500,000; Spreckles' building, \$700,000; Pacific State telephone building, \$350,000; Rialto building, \$400,000; Mutual Life building, \$450,000; Gore block, (unfinished), \$200,000; Examiner building, \$150,000; Postal Telegraph, \$300,000; Western Union and Associated Press, \$350,000; Union Ferry docks, (foundation excepted), \$300,000.
TRULY DREADFUL.
 One Hundred and Twenty Bodies, and More to Come.
 Los Angeles, April 19.—A long distance telephone message from Salinas gave the following information: One hundred and twenty bodies have been taken out of the Agnew insane asylum near Santa Clara, and there are probably 115 more corpses in the ruins. The magnificent structure was demolished. Eight dead Italians were taken out of the Italian hotel at San Jose. At that place the Presbyterian church, St. Patrick's Catholic church and the high school were demolished. The new hall of justice at San Jose, which was completed at a cost of \$300,000, was demolished. All but two of the university buildings at Stanford are in ruins.
 At Loma Prieta, eighteen miles from Santa Cruz, a mine house slipped down the side of a mountain, burying ten men in the ruins.
 Aid Extended.
 Washington, April 19.—A resolution extending aid to earthquake sufferers was favorably acted on by the house.

OPERA HOUSE TO-NIGHT.

 Mrs. M. Francis, A. and M. College
 Tableaux, "Before Marriage, After Marriage"
Miss Lucy Board, O. E. Saunders.
 Recitation, "Gray Jacket"
Jim Johnson.

TAKE TIME TO EAT
 Hurry at Meals Will Send You to E. J. Jenkins for Mi-o-na Somach Tablets.
 "Eat in haste and repent at leisure" is an old saying brought up to date.
 Hurry at breakfast means a bad start for the day, and if you hurry also at the other meals, you will soon suffer with loss of appetite, sleeplessness, nervousness, furred tongue, specks before the eyes, headaches, backaches, weakness and debility, indigestion, or other ills that are caused by an abused stomach.
 Here in Bryan, as in thousands of other places over the country, hurry at meals increases the druggist's business. Not a day passes that E. J. Jenkins does not sell several packages of Mi-o-na stomach tablets to those who have ruined their digestion by not taking time to eat.
 E. J. Jenkins has seen so many cures made by Mi-o-na that he sells it under an absolute guarantee that it will be successful in every case where it is used in accordance with directions, that is, one tablet before each meal, and will refund the money to anyone whom it does not help. A large box of Mi-o-na tablets costs but 50c if it cures; nothing if it fails.

MINTER SPRINGS.
 Very thankful, we are, to have missed the recent hail storms and cyclone, but oh! how we would have enjoyed part of the rain.
 Many of our farmers have good stands of corn, cotton and other crops, but the continued drouth in this section is getting serious.
 W. S. D. of Dimmitt, we are all glad that you so thoroughly enjoy life on the plains, we believe all you say about it but you will admit that old Brazos county has good soil, good water and good

people too, who are doing their best to place her with the Vanguard.
 The young people of our community enjoyed an Easter egg hunt at the residence of Mrs. J. M. Creed, the excitement of the little folks was in evidence as the frightened rabbits left the premises and hats full of pretty colored eggs brought in.
 Health of community is fairly good, tho' there is some sickness; but when we think of the cyclones, shipwrecks, famine and earthquakes afflicting various parts of the world; we are not inclined to murmur.
 Success to the Eagle. Cor.

EVERYBODY INVITED TO SAN ANTONIO
 Farmers and business men from the north, middle and western states, who have seen fit to join with us in the development of the state of Texas, are cordially invited to meet at San Antonio, Texas, Friday, April 20, and attend the opening exercises of the second annual meeting of the Northern Settlers' Association. This occasion has been widely advertised in all states from which Texas has secured its foreign citizenship, and there will doubtless be an immense attendance secured. All of the Texas lines have joined the Sunset Route in a joint invitation which has been widely distributed throughout the older states, and the land and immigration agents of that company are making strenuous efforts to secure large crowds from their respective territories. In addition to the efforts put forth by the Sunset Route, the Texas lines are all working for the same purpose. You will, therefore, no doubt upon your visit to San Antonio, meet with numerous of your former friends and neighbors.
 Round trip tickets will be sold at a very low rate, and in addition to the convention meeting, you will have an opportunity of witnessing San Antonio's annual Battle of Flowers, than which there is no more beautiful display.
 Write any general passenger agent in Texas for rates to San Antonio, or to T. J. ANDERSON, G. P. A., G. H. & S. A. Ry., Houston, Texas.

Enjoy a pleasant evening at the U. D. C. entertainment at the opera house tonight and aid the ladies in raising funds for the U. D. C. state convention which meets in Bryan in December. Seats on sale at Haswell's. 115

DR. BUTLER CALLED TO WACO

Has Received Four Calls During His Residence in Bryan.

On Sunday last the Columbus Street Baptist church of Waco extended to Dr. Geo. B. Butler a call to its pastorate. The church seeking his services is one of the important and growing ones of that city of churches and schools, has a membership of over five hundred and has recently let the contract for a new church building that will cost \$30,000.

This is the fourth call Dr. Butler has received during his residence in Bryan. The other calls included the First Baptist church of Houston and two points in Mississippi, from which state he came to Bryan.

Dr. Butler has not announced his decision in the matter, but hopes to have something definite to say about it to the congregation at tonight's revival service. Judging by his course in the past with reference to the several other flattering calls he has received, as well as the important and far-reaching demands of duty here, The Eagle believes that his decision will be to remain in Bryan to forward the great church and educational work he is doing here, affecting not only Bryan and Brazos county, but all South Texas. Sentiment could not be more unanimous in the demand that he shall do so, and his decision is awaited with deep interest.

A. Moore of Kurten called on the Eagle while in the city yesterday. Mr. Moore says they have had plenty of rain in his neighborhood, a good stand and crop prospects are as fine as he has ever seen at this season of the year.

I will have on display tomorrow a complete line of linens, including table damasks, sheets, scarfs, lunch cloths, doilies, etc. Call and see them before buying. Mrs. Nellie M. Ballard. 115

Friends in Bryan have learned with most profound regret of the death of Mrs. J. T. Swanson at her home in Navasota Tuesday evening. Mr. Swanson, who is well known and popular here, has the deep sympathy of many friends.

500 dozen new patterns in val lace on display. Wagner & Brandon. 20

Extra values in men's nobby straw hats \$1.00, \$1.25, \$2.00 and \$2.50. 120 Wagner & Brandon.

The Daughters of the Confederacy entertainment at the opera house Friday night will not begin until 9 o'clock on account of the revival services. Seats on sale at Haswell's. Remember the date and don't miss it. 115

Owing to the scarcity of long silk gloves we are showing the next best substitute in plain and lace mits, black and white, 18 to 22-inch at 50c, 75c and \$1.00. 120 Wagner & Brandon.

BIG BALL GAMES AT COLLEGE

Today and Saturday — A. and M. vs. Deaf and Dumb Institute.

Friday and Saturday will be two more red letter days for all lovers of baseball. The Deaf and Dumb Institute team of Austin will play the A. and M. boys on the athletic field at College on both days. The game will be called on Friday afternoon at 4:40 o'clock, and on Saturday afternoon at 4 o'clock sharp.

The D. and D. team is a good one and has defeated the State University and Baylor teams this year.

Good games are promised in the contests at College Friday and Saturday afternoons. Don't miss them.

CARD OF THANKS.

Grandma Lawrence requests The Eagle to express her sincere thanks to the many friends who attended or contributed to the success of the tea given for the benefit of the Methodist church in celebration of her 87th birthday on Wednesday afternoon at the home of Mr. and Mrs. G. S. Parker. The sum of \$60 was realized for the church, and the event was most thoroughly enjoyed socially. The attendance was very large.

DEATH OF MR. TOM NEWLAND.

Mr. Tom Newland, formerly of this city, died at his home in Corsicana yesterday at noon, after an illness of several months. Mr. Newland was born and reared in Bryan, and well known and much esteemed here.

He left Bryan several years ago, locating in Corsicana, where he subsequently married Miss Mozelle Beaton, a most charming young lady of that city. His wife survives him. Mr. Newland also leaves a sister and two brothers, Mrs. W. W. Harris and R. J. Newland of this city and Hugh Newland of Temple. Mrs. Harris and Mr. R. J. Newland left last night for Corsicana to attend the funeral, which will be held there today.

Mr. Tom Newland was an expert bookkeeper and experienced in business and was bookkeeper for the Richardson-Gay Oil Company when his last illness came upon him. He was a young man of excellent character and much esteemed. The news of his death is received with much sorrow and regret in this city.

Buster Brown belts with police whistles 25c. 120 Wagner & Brandon.

REVIVAL SERVICES ENCOURAGING.

Meetings the Past Two Days Largely Attended—Interest Strong—Several Conversions.

The interest in the revival services at the First Baptist church has manifestly increased the past two days. The attendance has been large and the sentiment manifested most encouraging for even greater results than have already been accomplished. Rev. Martin preached morning and evening and Rev. Hailey preached to the young people in the afternoon both days. There were four conversions and two additions to the church Wednesday, and two conversions and two additions at the morning service yesterday.

Rev. Martin preached last night a powerful sermon on "Blood or Hell," based on the scripture relating to the Jewish passover.

Woolen Will Wear IN ALL : A T H E R S

Argue as they will, one fact remains: Cotton adulterated cloth will neither keep its shape nor wear under any conditions. Pure woolen cloth will. Our Stein-Bloch Smart Clothes are made of pure wooleens, tested by the wool test, which is the beginning of all

Stein-Bloch Clothes

The only reason why cotton is substituted for wool in mercerized fabrics is to cheapen the goods. A house is no stronger than its foundation. So with clothes. Cheap fabrics mean cheap clothes; and no matter how shrewdly they are tailored, they will be untrustworthy. Stein-Bloch employ no mercerized or cotton adulterated fabrics. Their goods are pure caustic-tested wool, and the clothes made from them wear and keep their shape.

The Stein-Bloch Wool Test

The Stein-Bloch Wool Test consists of a boiling solution of water and caustic potash, the chemical action of which dissolves wool but not cotton. The two samples here shown were originally of the same length. The test proved one to be all wool, consuming the part immersed and leaving only the blackened edge. The other proved to be an adulteration containing a large per cent of mercerized cotton.

Stein-Bloch Suits \$17.50 to \$25.00

Kirschbaum Suits \$10.00 \$12.50 \$15.00

Kirschbaum Clothing Plant is the largest in the world, and these clothes from \$10.00 to \$15.00 have no equal. Give us a look, we can please you.

TWO HUNDRED MILLION
Property L's: at San Francisco Is
Thus Estimated.
FIRE CHIEF FACTOR
Some of the Most Magnificent Specimens of Modern Architecture
Fall a Prey to the Fury
of the Flames.

San Francisco, April 19.—Wednesday's experience has been a testimonial to the modern steel buildings. A score of these structures were in course of erection, and not one of these suffered. Uncompleted modern buildings were also immune from harm by the earthquake. The buildings that collapsed were all flimsy and old fashioned brick structures. The damage by the earthquake does not begin to compare with the loss by fire.

The heart of the business section of San Francisco has been destroyed by fire.

An area of eight square miles of thickly covered ground has been burned over.

Mayor Schmitz was about early, and took measures for the relief and protection of the city. General Funston was quickly communicated with, and by 9 o'clock 1,000 Federal soldiers were guarding the streets and assisting the firemen in dynamiting buildings.

General Funston realized that stern measures were necessary, and gave orders that looters were to be shot at sight. Four men were summarily executed before 3 o'clock in the afternoon. At a meeting of fifty citizens, called by the mayor, it was announced that 1,400 tents would be pitched in Golden Gate park, and arrangements had been made to feed the destitute in the public squares.

A finance committee with James D. Phelan at the head was appointed, and Mayor Schmitz was instructed to issue drafts for all funds needed on this committee.

It is probable that even with the spirit and willingness shown by the people of San Francisco that outside aid will be necessary. A message from President Roosevelt was received, and it had a cheering effect. George J. Gould also wired, offering assistance.

The burned district extends to the water front south of Market street and west to Eleventh street north of Market. The fire extends out Hayes and McAllister streets nearly to Fillmore, and from the water front along Market street to Montgomery, and north from the water front to Montgomery street. Manufactories, hotels, wholesale houses and residences comprising the principal part of the business section have been destroyed. The city hall, a structure costing \$7,000,000, was first wrecked by the earthquake and then destroyed by fire. The Palace hotel, value estimated at \$3,000,000, was also burned. The beautiful Claus Spreckles building, at Third and Market streets, was gutted. The Rialto and dozens of other costly structures were also destroyed.

The Odd Fellows' temple on Market street, the St. Nicholas hotel and Call and Examiners buildings and the Parrott building are gone, while the big city hall caved completely in when the earthquake struck the city.

Nearly every big factory building has been wiped out of existence, and complete enumeration of them would look like a copy of the city directory. Many of the finest buildings of the city were leveled to dust by terrific charges of dynamite in the hopeless effort to stay the horror of fire. In this work many heroic soldiers, police and firemen were maimed or killed outright. At 10 o'clock at night the fire was unabated, and thousands of people were fleeing to the hills and clambering for places of safety on the ferry boats and the ferry building.

The damage is believed to have reached \$300,000,000, and 50,000 people are homeless.

At 5 o'clock Wednesday the firemen were as far as ever from checking the progress of the flames. In the northern section of the down town business portion the fire swept around the hall of justice, and communicated to Chinatown, thence proceeding westward to the heart of that community. It then began rapidly eating its way southward on both sides of Kearney street.

From Golden Gate park comes news of the total destruction of the immense building covering a portion of the children's play ground.

In Union Square park, where a number of the homeless are being given temporary shelter, the mighty Dewey monument has been shifted from its base. It now stands leaning at angle of ten degrees, but there is no danger of the immense structure falling.

Under the fierce heat of the noon-day sun eighteen bodies lay in Washington square, where they were taken to the morgues and to the hall of justice basement held all that could be cared for.

The whole section of city on the north side of Market street to Tenth has been consumed in the hell of flames, while hardly a building is standing in the district south of Market street.

At 2 o'clock, despite the hard work of the firemen and the troops of dynamiters who razed building after building and blew up property valued at millions, the flames spread across Market street to the north side, and swept upon Montgomery street clear to Washington street.

The famous Mill street building and the new Merchants' Exchange, in which is situated the Marine and Stock Exchanges, are still standing, but the Mutual Life Insurance company building and scores of bank and office buildings are on fire, while blocks of other houses are in the path of the flames, and nothing seems to be at hand to stay their progress. Block after block of bank houses are now

masses of red hot ruins, and it will be months before the money that was housed in their vaults can be reached.

The earthquake caused the partial wreck of the California hotel an Rush and Kearney streets, and the falling chimney and cornice of the hotel crashed through the fire house adjoining, severely injuring Fire Chief Sullivan. He is in a precarious condition. Despite this disheartening accident the fire department, assisted by part of the Oakland department and many volunteers from outside districts, did heroic service, many brave men losing their lives while performing the work of succor. The earthquake, however, had broken most of the water mains, and the men were without water to battle the flames. Whatever water was obtained to fight the flames in the harbor front and in the factory district was pumped from the bay. This compelled dynamiting as the only possible method of saving any of the city.

The fire was kept confined to the south of Market street in the business section until about 3 o'clock in the afternoon, when the wind carried sheets of flame into the richest part of the city.

ONE THOUSAND DEAD.

This Is What Authorities at Oakland Say Is Fatality List.

Oakland, Cal., April 19.—Authorities here estimate the list of fatalities at San Francisco at 1,000, while many men are injured. In this place five persons lost their lives.

The dreadful catastrophe came without warning at precisely 5:13 Wednesday morning, its motion apparently being from east to west. At first the upheaval was gradual, but in a few seconds it increased in intensity. Chimneys began to fall and buildings to crack. People became panic-stricken and rushed into the streets, most of them in night attire. They were met by showers of falling buildings, bricks, cornices and walls.

Many were instantly killed, while others were dreadfully mangled. Those who remained indoors generally escaped with their lives, though scores were hit by plaster, pictures and other articles thrown to the floor by the shock. It is believed that more or less loss was sustained by nearly every family in San Francisco.

The Valencia hotel, a four-story wooden building, sunk into the basement, a pile of splintered timbers, under which were pinned many dead and dying occupants of the house. The basement was full of water, and some of the helpless victims were drowned.

Scarcely had the earth ceased to shake when fires broke out simultaneously in many places. The fire department promptly responded to the first calls for aid, but it was found that the water mains had been rendered useless by the underground movement. Fanned by a light breeze, the flames quickly spread, and soon many buildings were seen to be doomed. Then dynamite was resorted to, and the subsequent frequent explosions added to the terror of the people. All efforts to stay the progress of the fire proved futile.

SAN JOSE SUFFERS.

It Is Estimated that Fifty Persons Were Killed There.

Oakland, Cal., April 19.—At San Jose the Vendome Hotel Annex was badly wrecked and ten or fifteen persons killed. The Doherty block was completely burned and one woman killed. Dr. Degrow was killed and his wife badly injured. Every business house was demolished. The city is under martial law. It is estimated that fifty were killed. The postoffice was half wrecked. The First Presbyterian church was totally demolished and the court house wrecked.

Passengers arriving from other cities in California bring tales of death and disaster from nearly all places. Santa Cruz, Monterey, Gilroy and Hollister suffered severely. The death list at Santa Cruz is reported large.

SANTA ROSA A WRECK.

Ten Thousand People Homeless and Death List Is Large.

Los Angeles, April 19.—Santa Rosa is a total wreck, 10,000 people being homeless. The loss of life will probably run into the hundreds.

The whole business portion of the city is in ruins. Main street is piled many feet deep with fallen buildings. Not one business house is left intact. The four-story court house is a pile of broken masonry. Identification of the dead is impossible. The part of the town not destroyed by the earthquake was swept by fire. The cityzens fled to the fields and hills to watch the destruction of the city. The water system was destroyed by the earthquake.

Doctors and Nurses Depart.

Los Angeles, April 19.—A special train of four coaches with about seventy-five doctors and nurses on board left Los Angeles for San Francisco over the Southern Pacific Valley line. About an equal number of doctors and nurses who tendered their services were turned away on account of lack of accommodation on the train.

State Hospital Damaged.

Sacramento, April 19.—Governor Pardee has received a message from Killip that the state hospital is damaged and that Dr. Kelley is killed. The number of injured is unknown. It is asked that physicians and nurses be sent there.

Acts Independently.

San Francisco, April 19.—The newspapers have ceased all efforts to collect news, and the Associated Press force is compelled to act independently.

Governor Gone.

Sacramento, April 19.—Governor Pardee has gone to San Francisco to be on the ground so as to take immediate steps to furnish relief.
